The three ships are the Albay, Manileño and Mindanao. They have been stripped of everything practically useless for any purpose of the navy.

For several days it has been stated that General Guzman's force of insurgents, which was variously estimated at from 200 upwards, contemplated an attack on Cienfuegos. Col. Valle, with a detachment of rural guards and volunteers, was dispatched to Cienfuegos for the purpose of engaging Guzman and breaking up the hands. The encounter of the two forces yesterday resulted in the worst disaster which the insurgents have sustained up to this time. WHERE THEY STAND

Candidates for County Senators Answer Questions

OF CENTRAL LABOR UNION

On Issues of the Day, of Weekly Payments Eight Hours, Prison Labor, Employers' Liability, Etc.

The central labor union of Barre and vicinity, through its secretary, James Mutch, had addressed a series of questions to the candidates for senator in Washington county. Replies have been received from all and are printed below. The questions asked are:

First—If elected to the legislature as a state senator or state representative, will you pledge yourself to use your utmost endeavor to secure the passage of a weekly payment bill along the lines of that presented at the last session of the Vermont legislature?

Second—Will you take the same action towards the passage of an employers' liability act?

Third—Do you favor giving public employees an eight-hour work day?

Fourth—Do you favor the creation of a bureau of labor and board of factory inspectors in order to enforce the present child labor law, giving organized labor majority representation on that board?

Fifth—Will you endeavor to secure the passage of a state law eliminating convict labor in our penal institutions whenever such work enters into competition with free labor?

Sixth—Will you endeavor to secure the passage of a state law providing for the appointment of practical mechanics to act as inspectors for all plumbing and steam fitting, as a safeguard to public health? Rules for the laying of pipe and the making of sewer connections are to be provided in this bill.

Answers have been received to these questions as follows:

Northfield, August 13.

Enclosed please find list of questions answered in the affirmative, except No. 2, which I could not conscientiously say I would support. I will be framed that I would support.

Question 2, yes; 2, no; 3, 4, 5 and 6, yes.

John L. Moseley.

Northfield, August 15.

To questions 1, 2, 3 and 6 my answer is yes.

To question 4: In the present form of this question I must answer no. I do favor, however, a board of factory inspectors, a part of the duties of which would be the enforcement of the provisions of the "child labor law." I would give to organized labor an equal representation on said board.

To question 5: The phraseology of this question is to me objectionable and in the present form I must answer it in the negative. However, I do freely endorse and would sustain the provisions of article 13 of the independent platform adopted at Burlington June 28, 1906, a copy of which I here append.

We favor the use of the labor of state convicts to produce such articles as are necessary for their own consumption, and for such supplies as the state needs, and as far as possible, such articles as will not enter into competition with free labor; and we favor the labeling of all goods made in the penal institutions of the state as goods made in such institutions.

Wm. R. Mayo.

East Montpelier, August 15.

To questions 1, 2, 3, 4, 5 and 6 my answer is yes.

I am in favor of any legislative action to improve the condition of the laboring man. Regarding question No. 4 I cannot fully agree with what you ask, but am in favor of a board of inspectors giving organized labor equal representation on that board.

Oramel G. Steward.

Waterbury, August 11.

To questions 1, 3, 4, 5 and 6 my answer is always paid my help weekly. I think it proper.

Question 2: If it is negligence of employers, they should be liable. If negligence of employee, employer should not.

Question 3: Shall strive to do the proper thing by state, convict and laborer. Have not fully looked up the matter.

G. E. Mosely.

Barre, August 14.

In reply to questions 1 and 2 I refer you to the plank in our platform on labor law.

Question 3, yes.

Question 4: I am in favor of creating a bureau of labor, giving organized labor an equal representation thereon. Questions 5 and 6 are fully covered by sections 12 and 13 in the Fusion platform, on which I stand.

C. W. Melcher.

FINAL PITCHING RECORDS.

Exceptional Work of Titt, Hatch, Hildebrand and Burns Noted.

With the close of the Northern league season Saturday, the pitching records are complete, says the Free Press. The last three days saw Burlington working Hays, Whitney and Beach. Whitney, who was not a regular member of the team, won the only game he pitched, and thus has a 1,000 record. But Titt, the winner of 10 out of 12 games pitched, is the league's most successful pitcher. The three games he lost, two to the Hyphens and one to the Rutland quitters, afforded the series of the Twins and Marble cities more real pleasure than anything else all season, all of which showed just how anxious they were to beat him, and how much honor they gave their teams in doing it. Harry Hatch would have given Titt a close rub for first honors had not luck broken badly for him the last of the season, when he lost games by sinning runs while holding the winners to four or five hits. More was to be expected of Wiggs, the big leaguer, than of the college twirlers, but he was not up to either of the Brown men in ability to field his position, and so had nothing on either Titt or Hatch except terrible speed. To park back, the only poor game played by Burlington the whole season was the second one that Wiggs pitched, his poor fielding getting the locals all in the air. The work of Hildebrand and Burns equaled that of any box artist in the league, each winning 10 out of 17 games, a truly fine record considering the support they received at the bat and in the field. The records of the regular pitchers follow:

	G.	W.	L.	Pct.
Hatch, Burlington	12	8	4	.667
Titt, Burlington	12	10	2	.799

ACCIDENT TO WHITE MOUNTAIN TRAIN

Eccentric Rod Breaks as Train Nears Waterbury—Mail Train Stopped Just in Time to Avert a Collision.

Waterbury, Aug. 28.—While the White Mountain express was running at the rate of 50 miles an hour yesterday afternoon, the eccentric rod of the engine broke at a point two miles south of this place. The engineer heard the rod strike the tie and instantly applied the brakes, stopping the train within its length, at the same time whistling to the flagman to stop the mail train which was following behind. The mail was flagged just as it came around a curve. A moment's delay would have resulted in a collision between the two trains. The crews of both trains were engaged for twenty minutes before the break was repaired and traffic again resumed. The accident occurred near the bridge where the terrible accident of a few years ago happened. On one side of the track at this place there is a sheer drop of 50 feet to the river, and on the other, a drop of 20 feet to the rocks below. Only the prompt action of the engineer prevented a serious accident in which doubtless many lives would have been lost.

The horse was badly cut up and the wagon smashed, no further damage being done.
